Subject: FW: EPA data request - Deschutes TMDL
Attachments: data_request_EPA_2018_November.xlsx

Hi Michelle,

Here is the Thurston County data. They are still working on the data for Oct 2017 to current.

Thanks,

Miranda Hodgkiss

Subject: RE: EPA data request - Deschutes TMDL

Hi Miranda,

I have copied all the data until September 2017 for monitoring sites located on the following streams:

- Black Lake Ditch
- Deschutes River
- Indian Creek
- Moxie Creek
- Percival Creek
- Reichel Creek
- Spurgeon Creek

I will email you Oct 2017 to current asap. I'm still working on QA for that data set.

Let me know if you have any questions.

Thanks,

Renee

Subject: RE: EPA data request - Deschutes TMDL

Hi Renee,

Thanks for getting back to me. I'm not sure why those creeks are highlighted. We would like data for all of the listed waterbodies, if possible.

Subject: RE: EPA data request - Deschutes TMDL

Hi Miranda,

My supervisor passed this data request to me. Do you need flow, temperature, pH, DO, FC, turbidity, nutrients for only the highlighted sites?

- Black Lake Ditch
- Deschutes River
- Indian Creek
- Moxie Creek
- Percival Creek
- Reichel Creek
- Spurgeon Creek
- Ellis Creek
- Schneider Creek
- Lake Lawrence Creek

Subject: RE: Deschutes TMDL follow up

Hi Jane,

I received an email from Allison awhile back with some sources of data in the Deschutes Watershed. We are interested in taking a look at the data to see if it is potentially useful as EPA works on developing the replacement Deschutes TMDLs. We are working with a contractor, TetraTech, on this project. I believe Michelle Schmidt from Tetra Tech michelle.schmidt@tetrattech.com has contacted you because she had some follow up questions on how to obtain the raw data (what we currently have is in pdf format). Below is the information she requested – would you be able to help me out with this request? Feel free to forward this to someone else, as needed. And if you have questions, please give me a call at 206-553-0692. Thanks so much!

Data request:

We are interested in obtaining the County's water quality data for the following waterbodies. We are interested in these parameters: flow, temperature, pH, DO, FC, turbidity, nutrients. We could work with the data in Excel, text file, csv, or Access format. We are interested in data from 2004 through present.

- Black Lake Ditch
- Deschutes River
- Indian Creek
- Moxie Creek
- Percival Creek
- Reichel Creek
- Spurgeon Creek
- Ellis Creek
- Schneider Creek
- Lake Lawrence Creek

Thanks again,
